WHO WE ARE

Prioriserv Consults Ltd is an indigenous company incorporated in 2018 under the Company & Allied matters act of the Federal Republic of Nigeria (RC 1512080).

Since 2018, we have been at the front position in delivering engineering, procurement, training and construction projects largely within the oil & gas, healthcare, agricultural, and construction industries. From Engineering, construction & upgrade projects to procurement and supply of several topsides equipment, we have provided the technology to meet customers' valuable projects (plants, facilities and infrastructure).

Our success stems from leaders who are knowledgeable, respected, and trustworthy, working with employees who exemplify pride, initiative, and personal conviction. Through these high ideals, we lead as an entity with genuine concern for our employees, making them top priority. The resulting loyalty and sense of honor elevates a greatness that is measured by the achievements of our employees.

Prioriserv Consults Ltd is accredited with the Nigeria Content Development (NCD) Department for Petroleum Resources (DPR) and the Nigeria oil & gas quality control

QUALITY HEALTH, SAFETY AND ENVIRONMENT (QHSE)

We are committed to eliminating HSE incidences across our operations, to investigate and prevent recurrence of quality and HSE related non-conformance. We also ensure compliance with all applicable local and international laws.

QUALITY CONTROL AND QUALITY ASSURANCE

Prioriserv quality assurance and quality control services help to ensure compliance with all contractual specifications, mandatory regulations and quality standards.

Our Quality Assurance objectives ensures that we meet the following:

- Comply with all relevant quality standards and regulations
- Verify materials, parts and final product through independent check, audits and inspections.

Assure the quality of all equipment, materials structures, components and systems utilized in the construction, manufacturing and operation of all types of industrial facilities.

MANAGEMENT STAFF PROFILE / CORPORATE GOVERNANCE

To protect the company and shareholders' long-term benefits, we are committed to strictly abide to business ethics, maintain high standards of corporate governance, and fully complying with the laws and regulations of the day. We believe that a well-functioning corporate governance system will ensure a high level of transparency and hence lay a solid foundation for future business development

OLUSOLA ADU

Sola had over 23 years' experience in the pharmaceuticals industry and up until October 2019 was in the downstream sector of the Nigerian Oil Industry for about 5 years. Currently he is the Chief Consultant for Prioriserv Consults Ltd, a company he set up with other like-minded Nigerians to provide services to the Nigerian oil downstream sector.

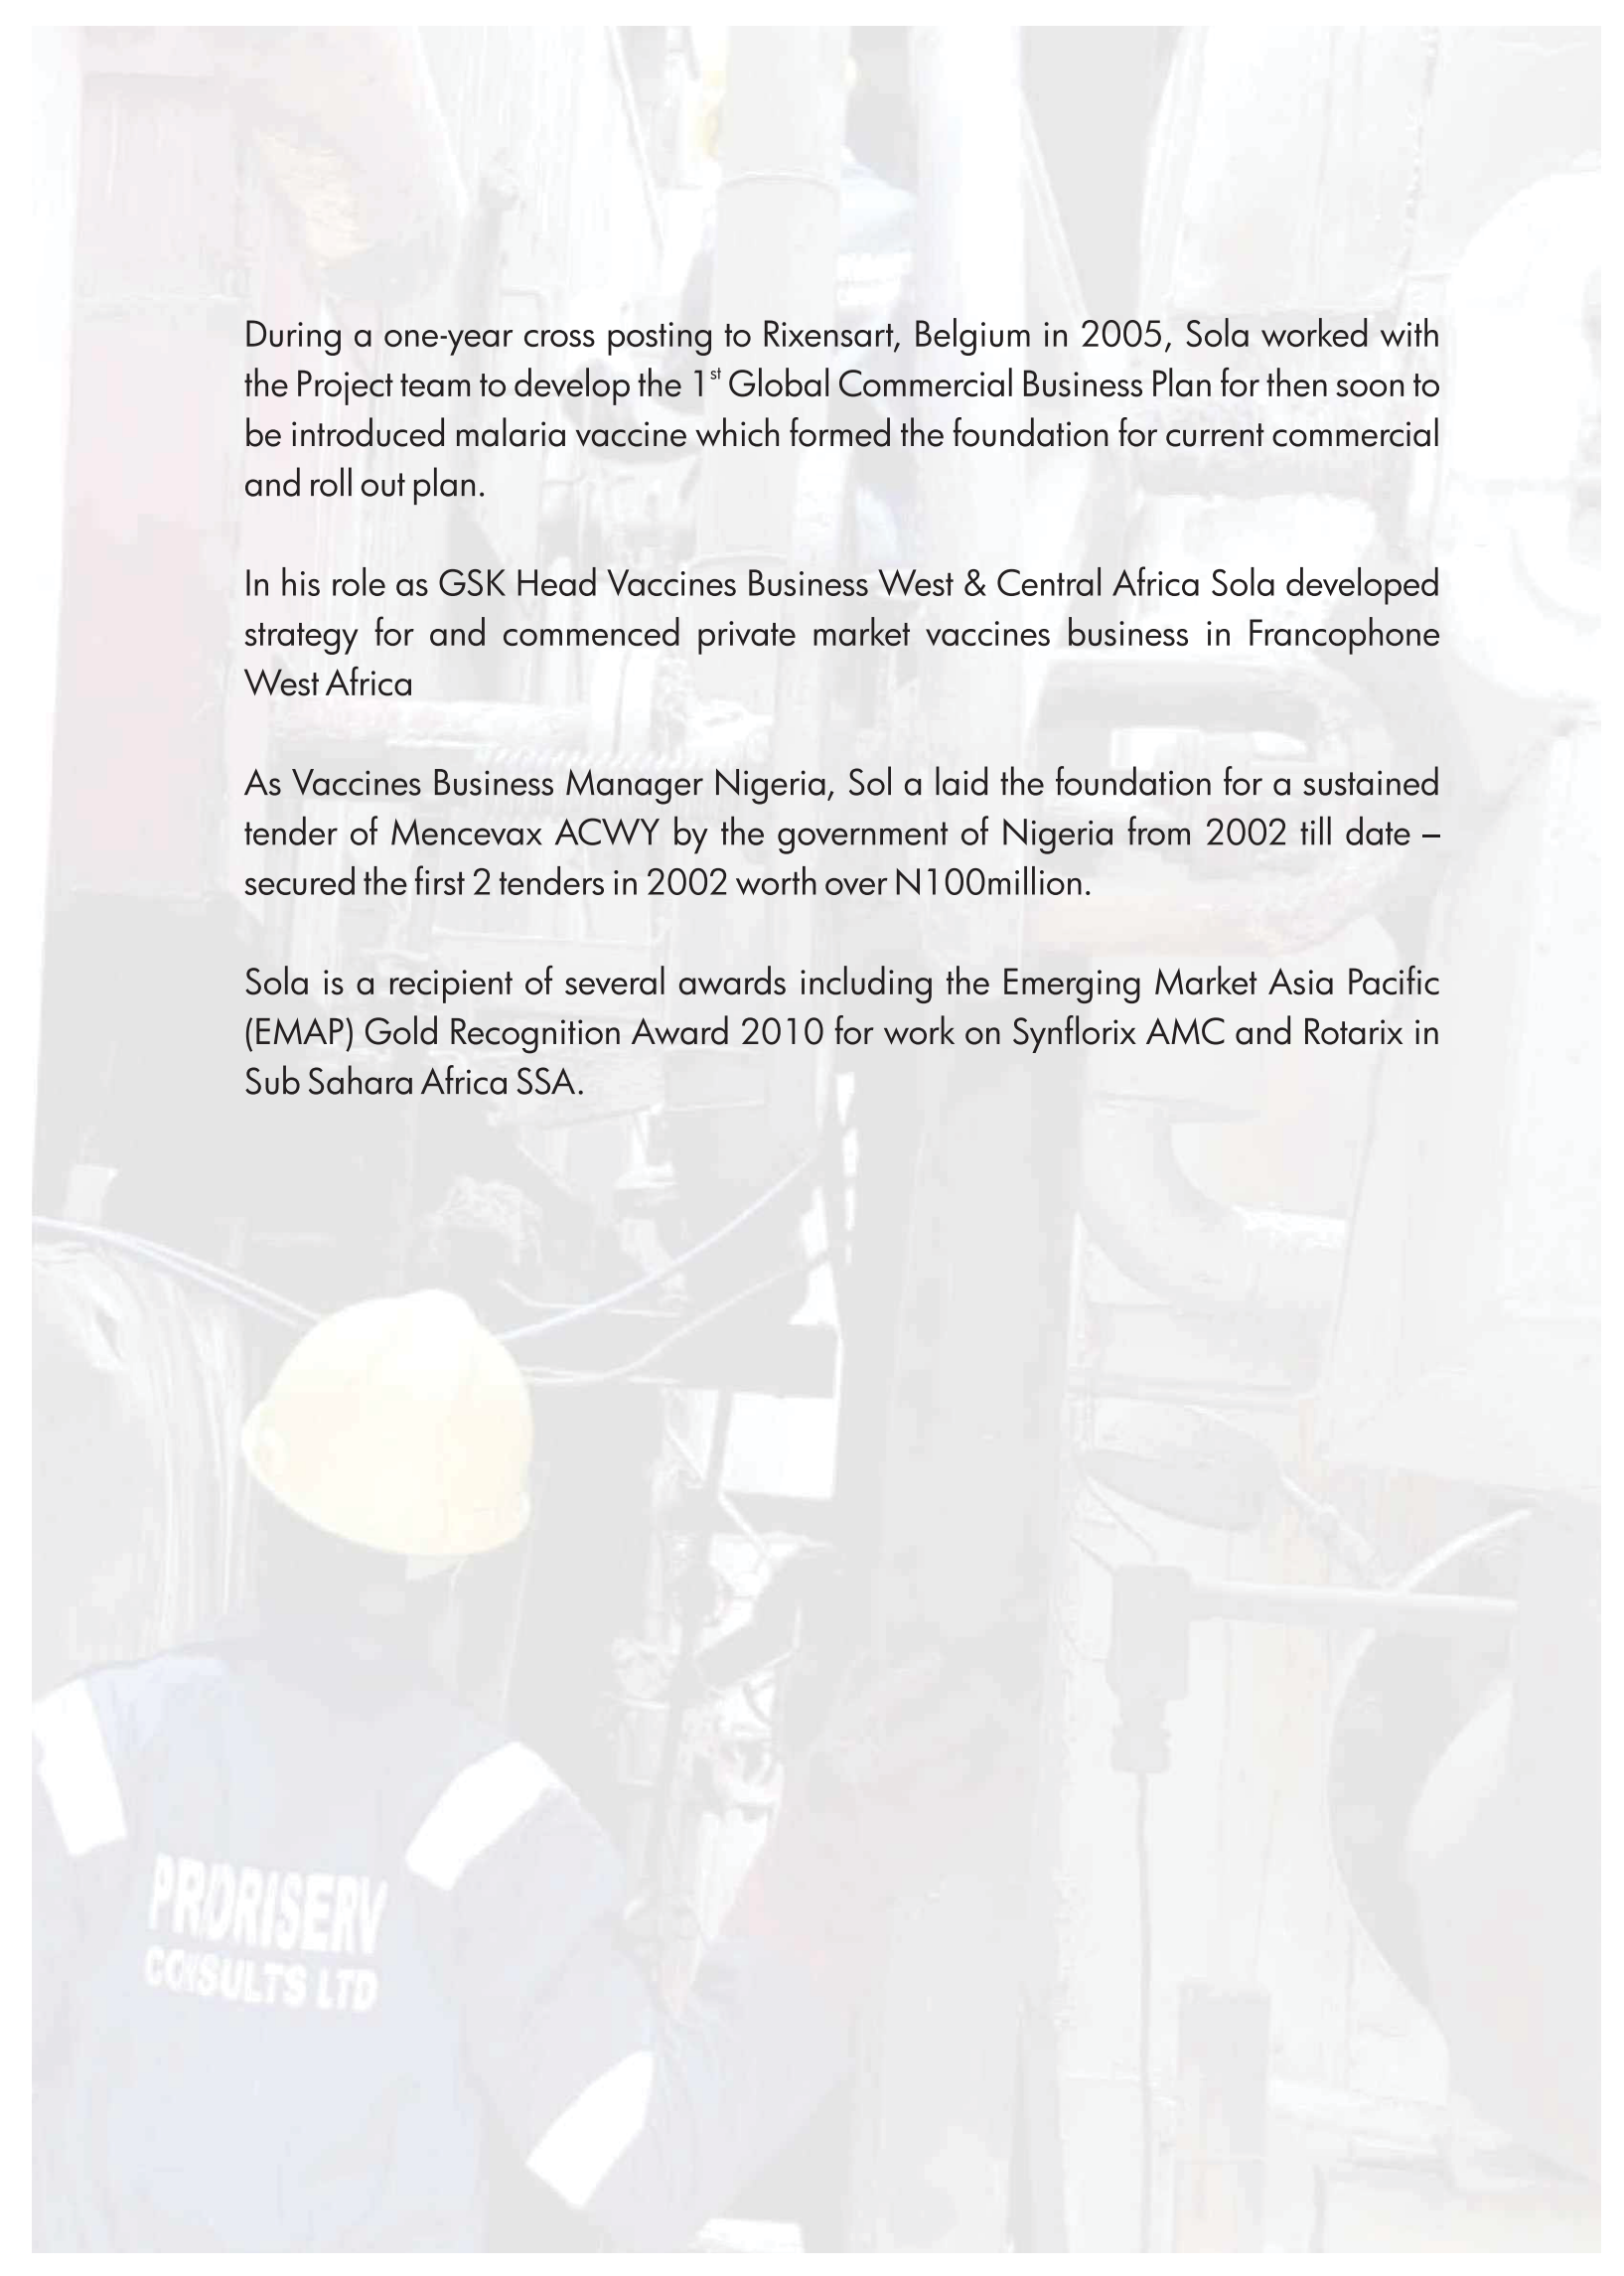

From July 2014 through early 2019 Sola was Head Supply and Logistics for Conoil Plc. He was responsible for delivery of refined petroleum products to about 400 Conoil retail stations scattered across the country. In the role he managed the independent petroleum products transporters and liaison with the industry regulators. For a brief period of about 6 months in 2019 he was coordinator of retail sales for the entire Conoil Plc business until he retired to set up his Company

With GlaxoSmithKline, Sola worked extensively in Africa and held various leadership roles in both the Pharmaceuticals and Consumer healthcare organisation of GlaxoSmithKline. Sola was a member of the Africa and Middle East leadership team between 2009 and 2014 as head of GSK vaccines business for Africa. Sola left GlaxoSmithKline in July 2014 and joined up with Conoil Plc.

In his role as GSK Regional Vaccines Director Africa, Sola successfully defended the Rotarix Vaccines Tender in South Africa trice – 2010, 2012 and 2014 and won the Cervical Cancer Vaccines tender in 2014. As part of the Morocco tender team, he succeeded in switching to GSK's pneumococcal vaccine since 2012 and retained it in 2013.

As the Area Vaccines Director for Sub Saharan Africa (SSA), Sola drove GAVI strategy in SSA for Synflorix and Rotarix resulting in GAVI Board approvals for several SSA countries that are now implementing.

In the role as Sales Director for the GlaxoSmithKline Pharmaceutical business in Nigeria from 2006 to 2009, Sola developed and implemented a new selling model and also implemented new commercial agreement with principal partner both of which resulted in significant growth and better profitability.

During a one-year cross posting to Rixensart, Belgium in 2005, Sola worked with the Project team to develop the 1st Global Commercial Business Plan for then soon to be introduced malaria vaccine which formed the foundation for current commercial and roll out plan.

In his role as GSK Head Vaccines Business West & Central Africa Sola developed strategy for and commenced private market vaccines business in Francophone West Africa

As Vaccines Business Manager Nigeria, Sol a laid the foundation for a sustained tender of Mencevax ACWY by the government of Nigeria from 2002 till date – secured the first 2 tenders in 2002 worth over N100million.

Sola is a recipient of several awards including the Emerging Market Asia Pacific (EMAP) Gold Recognition Award 2010 for work on Synflorix AMC and Rotarix in Sub Sahara Africa SSA.

ARINZE IKEMEFUNA

Arinze has 14 years' experience in the Engineering industry and currently he is working with PRIORISERV CONSULTS LTD to provide fire safety services to industries and Companies in Nigeria.

From July 2007 through late 2013 Arinze was an artisan installation and maintenance engineer for Mak-Bel Safety Ltd for 2 years. He grew to be a team leader. He was responsible for installation, maintenance of smoke detectors, FM Suppression System and Fire Extinguishers. In the role, he led his team in carrying out his job functions satisfactorily. For a brief period of about 8 months in 2013 he later became the senior supervisor of all projects of Mak-Bel Safety Ltd until he resigned to go for some professional courses and worked as a freelance.

From 2016, Arinze worked as a freelance engineer for Joesander Global Project alongside studying Physics at the UNIVERSITY OF LAGOS.

Arinze supervised all installation and maintenance jobs done within or outside the country. In early 2017, Arinze joined Shirima Ltd, his role was to work as an Installation Engineer of Smoke Detectors and FM Suppression in all the projects awarded to Shirima Ltd and up until 2020 he joined PRIORISERV CONSULTS LTD working in the safety department for the Installation and Maintenance of Smoke Detector, FM200 Suppression System, CCTV, to provide fire safety services to different companies and industries in Nigeria.

ORGANOGRAM

CORPORATE SERVICES

ENGINEERING & CONSTRUCTION

OPERATION & MAINTENANCE SERVICES

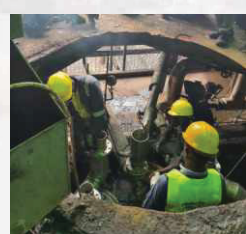

- Pipeline Construction/Leak Repairs/Clamping
- Cathodic Protection System
- Supply and installation of Equipment
- Advance NDT
- Man power

BOILER INSTALLATION / MAINTENANCE

Prioriserv consults Ltd carries out boiler maintenance as a part of its scope of services. Boiler maintenance is important in maintaining the integrity and life span of boilers. Leaks in steam, water and fuel connections are sought out and fixed before they become a problem. The preventive maintenance of boilers ensures longer life of the boilers and reduces downtime during operations.

WELDING AND FABRICATION

One small, undetected leak can become one big problem for UST owners and operators. Lines especially are the most vulnerable part of a UST system, with 70% of all leaks occurring in line fittings, welds and joints. When it comes to fuel leak detection, accuracy matters. Prioriserv Consults Ltd precision tank and line test is the fastest, most accurate method of fuel leak detection. There is no leak scenario our test method cannot detect.

MANIFOLD CONSTRUCTION & INSTALLATION

Prioriserv Consults fabricates, installs and test new manifold pipes. Manifolds are wide or larger pipes or channels into which smaller pipes or channels lead. This

comes in various forms with different areas of application.

Manifolds are used extensively in the oil and gas operations due to its flow distribution applications. At Prioriserv Consults Ltd, we work with you to install and deliver your manifold needs.

PIPELINE LEAK REPAIRS/ CLAMPING

One small, undetected leak can become one big problem for UST owners and operators. Lines especially are the most vulnerable part of a UST system, with 70% of all leaks occurring in line fittings, welds and joints. When it comes to fuel leak detection, accuracy matters. Prioriserv Consults Ltd precision tank and line test is the fastest, most accurate method of fuel leak detection. There is no leak scenario our test method cannot detect.

TANK CALIBRATION

Prioriserv Consults Ltd offers a sophisticated tank calibration service, formulating highly accurate calibration data for tanks of various shapes, sizes and designs. The combination of years of calibration experience with the latest software enables us to provide highly accurate, cost-effective tank and sphere calibrations. Using the latest laser theodolite technology for tank

calibration, engineers and technicians are equipped with state-of-the-art measuring devices. Tank calibrations are conducted to the exacting requirements of the appropriate international standards published by the International Organization for Standardization (ISO) or by the American Petroleum Institute (API). In addition, we can apply our innovative Scan Cal programme to provide highly accurate calibration data with increased procedural safety.

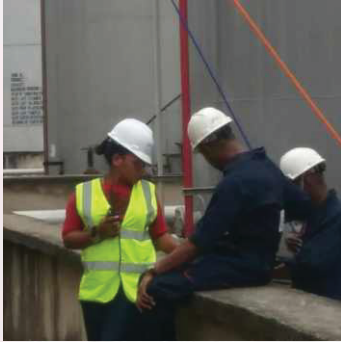

CATHODIC PROTECTION

Prioriserv Consults Ltd is responsible for carrying out some of the largest and most complex projects of this type in the world. Prioriserv Consults Ltd corrosion engineers are amongst the world's leading experts in the field of deterioration and repair of reinforced concrete structures of all types. Prioriserv Consults Ltd possesses unrivalled expertise in the field of corrosion surveys, potential mapping, corrosion rate surveys, design and specification services, materials supply, installation, commissioning and maintenance of cathodic

protection systems for steel reinforced concrete structures. These services have been successfully implemented on a wide range of structures such as power plants, seawater cooling systems, bridges, docks, etc. In addition to providing such services to existing deteriorated structures, Prioriserv Consults Ltd also provides a similar service for construction of new concrete structures that will prevent the onset of reinforcement corrosion in an economic way.

INTEGRITY TEST

Without regular professional integrity testing of your tanks and pipework, your fuel storage system carries substantial risk. Integrity testing is a type of non-destructive test (NDT) that is fundamental in ensuring a fuel storage tank is fit for purpose while adhering to the current industry specifications. Over time, a tank's integrity can decrease due to a number of factors such as poor maintenance, atmospheric

conditions or an original poor install/none conforming tank. Tank integrity failure can lead to ground contamination, watercourse contamination and damage to the structural integrity of buildings. The environmental impact from a leaking tank can be catastrophic. Prioriserv Consults Ltd carries out a professional integrity test with well experienced Engineers.

FIRE PROTECTION, SAFETY SYSTEM SERVICES & SUPPLY OF INDUSTRIAL CHEMICALS

Prioriserv Consults Ltd is specialized and delivers high quality Industrial Chemicals, Industrial and Residential fire protection services amongst others.

We specialize in fire sprinkler design, fabrication, Installation, and support as well as fire alarm design, installation and support for both the commercial and residential buildings.
